

# MassDEP

## Intern Project Description

Program Name: Bureau of Resource Protection  
Drinking Water Program  
Location: Boston, MA

### Description of MassDEP Project

The project is to research and prepare for a forum on Boil Water Orders in Massachusetts.

### Description of Internship Duties:

The intern will evaluate the numbers, types, and cause of boil water orders issued in the state over the last 5 years. The intern will review our current procedures, compare them to other specified States and make recommendations for updating our procedures

### Description of Knowledge and Skills needed:

This project will require a background in public health or environmental science. The intern should have good research, organization and writing skills. The person should be able to provide at least 6 hours per week to the project for the next 3 months.

### Any other relevant information:

In addition the intern will plan for an internal and external forum on Boil Water Orders and will be responsible for drafting a final report.
